

The Records of the Oregon Bird Records Committee

through July 2018

The Oregon Bird Records Committee (OBRC) was organized in 1978 to collect, review, and maintain records on rare birds found in Oregon. The OBRC became a Committee of Oregon Birding Association (OBA) (formerly Field Ornithologists) in 1980.

The OBRC consists of 9 members and 6 alternates from throughout Oregon. Members and alternates are elected by their peers. Members serve staggered 3-year terms and alternates serve 1-year terms. The OBRC votes on most records electronically or at an annual meeting.

The OBRC uses the taxonomy and nomenclature of the American Ornithologists' Society 1998 Check-List (as supplemented).

Each record considered by the OBRC is assigned a unique record number. The first 3 digits is the AOU number for the species; the second 2 digits is the year in which the record was obtained; and the third 2 digits is the number of the record for that species in the order in which it was received by the OBRC Secretary. A missing number in the sequence means that the OBRC has not yet completed its review of that record; some records have been deferred until more information has been obtained.

Information for each record also includes where the record was obtained, the date(s), the plumage or age of the bird when appropriate, and abbreviations for persons submitting the record. Other remarks have been added as appropriate. A list of contributors is presented at the end.

The Official Oregon State List now stands at 537 species.

ACCEPTED RECORDS

Black-bellied Whistling-Duck *Dendrocygna autumnalis*

177-88-01 Near Grants Pass, Josephine Co, 1 bird in 1988 (photo by JvH).

Fulvous Whistling-Duck *Dendrocygna bicolor*

178-70-01 Coos Bay, Coos Co., a flock of 11 from 14-24 February 1970 (HR; photos by ES). First verified Oregon record.

Tundra Bean Goose *Anser serrirostris*

[171.1-14-01](#) Nestucca Bay NWR, Tillamook Co., 9 November 2014 (WH, DI, photos by DaV, HH, NeN, ScC, AFr, OS, WH, CrB, DI);

Whooper Swan *Cygnus cygnus*

[179-94-02](#) Summer Lake WMA, Lake Co., 1 bird 10-21 November 1994 (JJo; photos by HN, CM, SR; videotape by OS).

[179-97-03](#) Airlie, Polk Co., 1 bird 27 November-1 December 1997 (JL; photos by WT, RL, RHo).

179-98-04 Lower Klamath NWR, Klamath Co., 1 bird on 24 January 1998 (KS).

Baikal Teal *Anas formosa*

139.1-74-01 Irish Bend, Benton Co., male collected by hunter on 12 January 1974. Specimen-Oregon State University Collection. In *American Birds* 28(3): 679. First verified state record.

[139.1-07-03](#) Fern Ridge Reservoir, Lane Co., 1 shot male on 31 December 2007 (details By RKe; photos by DHol).

[139.1-16-04](#) Sauvie Island, Multnomah Co., 1 shot male on 31 December 2016 (details and photos by LeeR and CoS).

Garganey *Anas querquedula*

139.2-88-01 Nehalem sewage ponds, Tillamook Co., 1 in basic plumage 17-19 September 1988 (NL, SH; photos by JJo, TC, JG). First verified state record.

[139.2-92-02](#) Bay City sewage ponds, Tillamook Co., 1 alternate-plumaged male 9-13 May 1992 (MAS, MP; slide by BW; video by RBa).

139.2-00-04 Fernhill Wetlands, Washington Co., 1 eclipse plumaged male on 22 October 2000 (HN, FSh).

[139.2-05-05](#) Tangent S. Ponds, Linn Co., 1 adult male 14-17 May 2005. (details by JFI; photo by RaC).

Falcated Duck *Anas falcata*

[137.1-04-01](#) Kirk Pond, Lane Co., 1 adult male 14 February-6 March 2004 (DHe, VA, PSu; photos by MN, SMA; video by OS).

[137.1-05-02](#) Coburg, Lane Co., 1 adult male 16 January into April 2005 (photos by PeP, SvM, KBr videos by OS, RM).

137.1-06-03 Eugene, Lane Co., 1 adult male on 14 March 2006. (video by JW).

[137.1-06-04](#) Coburg/Eugene, Lane Co., 1 male 13 November 2006-18 January 2007 (photos by PeP, JeH, RRo; video by JW, BaW).

American Black Duck *Anas rubripes*

133-50-02 Summer Lake, Lake Co.; photos of a specimen collected by a hunter on 12 November 1950. Specimen in Oregon State University collection. In: *Murrelet* 35: 47, 1954. First verified state record.

[133-98-04](#) Hood River, Hood River Co., 1 pure adult male 4 January 1998-mid-December 2000 (HN; photos by SR, OS, TJ).

Tufted Duck *Aythya fuligula*

REMOVED FROM THE REVIEW LIST APRIL 21, 2001

149.1-60-01 Laurelhurst Park, Portland, Multnomah Co., 1 male during winter of 1960 (photos by DM). First verified Oregon record.

149.1-78-02 Forest Grove, Washington Co., 1 female on 15+ October 1978 (JG).

- 149.1-82-03 Finley NWR, Benton Co., 1 male on 14 February 1982 (JK; photos by RK, FR).
- 149.1-83-04 Wapato Lake bed, Washington/Yamhill Co. line, 1 female on 22 December 1983 (JE).
- 149.1-84-05 Coquille, Coos Co., 1 male in adult plumage on 11 March 1984 (GK).
- 149.1-88-07 Lake Meares, Bayocean Spit, Tillamook Co., 1 adult male from 6 February-19+ March 1988 (JE, JJo).

RECORDS NOT ACCEPTED

The following records were not accepted by the OBRC. Records reviewed after 1 January 1988 carry a brief explanatory statement. Names of contributors have been omitted.

Fulvous Whistling-Duck *Dendrocygna bicolor*

178-95-02 Upper Campbell Lake, Lake Co., 2 birds were observed 18 September 1995. Not accepted as descriptions did not adequately describe a Fulvous Whistling-Duck or completely rule out similar duck species.

Whooper Swan *Cygnus cygnus*

179-91-01 Lower Klamath NWR, Klamath Co., 1 from 7 December 1991-22 February 1992. The bird was accepted as properly identified but the details were not sufficient enough to prove that the bird was actually in Oregon.

Baikal Teal *Anas formosa*

139.1-06-02 Seaside, Clatsop Co., 1 bird on 11 November 2006. Details indicated a duck in unusual plumage that did not entirely fit this species or other similar plumaged ducks.

Garganey *Anas querquedula*

139.2-98-03 Bird eventually determined to be an escape from a collection of exotic teal owned by a local aviary. Record withdrawn.

American Black Duck *Anas rubripes*

133-76-01 Daley Lake, Tillamook Co., 2 males on 2 February 1976. Not accepted because of questionable origin.

133-86-03 Yaquina Bay, Lincoln Co., 1 bird observed 7 September 1986. The description submitted indicated that this individual was a hybrid, most probably Mallard X American Black Duck. The dull olive-green upper mandible with considerable black mottling plus other plumage characteristics indicate hybrid. The origin of this bird was discussed but it was not the reason this record was not accepted.

133-02-05 Baskett Slough NWR, Polk Co., 1 bird observed 13-14 July 2002. 15-year-old record did not rule out other species or possible hybrids.

Common Pochard *Anas ferina*

146.1-95-01 Hat Rock State Park, Umatilla Co., 1 immature plumaged bird 29 September-3 October 1995. Photos and descriptions did not perfectly fit pochard and did not rule out Redhead or hybrid Redhead X Canvasback. Hybrids of this type look quite like Common Pochard.

Tufted Duck *Aythya fuligula* **Removed from the Review List April 21, 2001**

149.1-87-06 Monmouth sewage ponds, Polk Co., 1 first-winter male from 12-31 January 1987. Originally accepted, but not accepted on reconsideration as the bird returned the next two winters, was subsequently identified as a hybrid bird, and was so published in *American Birds* (44(2): 318).

- 149.1-89-10 Baskett Slough NWR, Polk Co. 1 male on 26 February 1989. Not accepted because bird appeared to be a hybrid. Not accepted on reconsideration for same reason.
- 149.1-89-12 Originally part of 149.1-89-09, male and female. Male accepted. Female split from record and recirculated as record 149.1-89-12, not accepted.
- 149.1-96-22 Sauvie Island, Multnomah Co., 1 male bird on 29 December 1996. Details did not rule out hybrid duck or some other species.

King Eider *Somateria spectabilis*

- 162-87-04 South Jetty of the Siuslaw River, Lane Co., 1 on 1 July 1987. Not accepted because there was insufficient information to eliminate Common Eider, Surf Scoter, or White-winged Scoter.
- 162-97-08 South Jetty Umpqua River, Douglas Co., 1 female on 5 July 1997. Not accepted as the details were brief and incomplete and did not eliminate other duck species.
- 162-10-12 Yachats, Lincoln Co., the bird, probably an immature male, was seen at a distance in unsatisfactory conditions. The plumage description did not completely eliminate similar species.

Common Eider *Somateria mollissima*

- 159-65-01 Tillamook Bay, Tillamook Co., 1 female on 15 November 1965.
- 159-82-02 Netarts Bay, Tillamook Co., 1 immature male on 28 November 1982.
- 159-72-03 Yaquina Bay, Lincoln Co., a flock on 9 January 1972; record withdrawn by observer.

Smew *Mergellus albellus*.

- 131.1-91-02 Mouth Siuslaw River, Lane Co., 2 birds 26 February 1991. Not accepted for insufficient and ambiguous details.

White-tailed Ptarmigan *Lagopus leucurus* **Removed from the Review List November 1, 1981**

- 364-81-01 Eagle Cap Wilderness, Wallowa Co., 1 on 1 August 1981. Not considered because species was dropped from the Review List.

Japanese Quail *Coturnix japonica*

- 288.6-88-01 Three Creek Meadows, Deschutes Co., 1 in August 1986. Photos showed a juvenile Varied Thrush.

Arctic Loon *Gavia arctica*

- 009-92-01 Alsea Bay, Lincoln Co., 1 in basic plumage on 27 November 1992. Written details brief and did not eliminate other loon species.

- 009-96-02 Cape Meares, Tillamook Co., 2 basic-plumaged birds on 29 September 1996. Not accepted as details did not completely eliminate Pacific Loon.
- 009-96-03 Yaquina Bay, Lincoln Co., 1 in basic plumage 10-16 August 1996. Not accepted as details and photographs indicated a molting Pacific Loon.
- 009-03-05 Yaquina Bay, Lincoln Co., 1 in basic plumage on 22-23 November 2003. Not accepted as slides and description did not rule out similar Pacific Loon.
- 009-98-06 Blind Slough, 1 bird on 27 December 1998 and 30 December 1998.
- 009-11-08 Tillamook Bay, Tillamook Co., 1 bird 22-25 January 2011. Photos not diagnostic for Arctic Loon and appeared to be a small billed Common Loon.

Yellow-billed Loon *Gavia adamsii*

- 008-80-08 Yaquina Bay, Lincoln Co., 1 in basic plumage on 28 May 1980.
- 008-84-10 Yaquina Bay, Lincoln Co., 1 mostly in basic plumage on 18 April 1984.
- 008-87-15 South Jetty of the Columbia River, Clatsop Co., 1 on 9 May 1987. Not accepted because an insufficient description was obtained on a bird seen only in flight.
- 008-88-19 Loon Lake, Douglas Co., 3 birds on 14 February 1988. Photos are inconclusive and written details do not eliminate immature Double-crested Cormorant.
- 008-89-22 Hood River, Hood River Co., 1 bird on 29 January 1989. Photos are inconclusive, did not rule out Common Loon.
- 008-90-23 Yaquina Bay, Lincoln Co., 1 in basic plumage on 18 March 1990. Written details do not rule out Common Loon.
- 008-94-31 Yaquina Bay, Lincoln Co., 1 basic-plumaged adult 21-27 November 1994. Details submitted were rather sketchy and incomplete and did not completely rule out second basic-plumaged Common Loon
- 008-94-32 Wallowa Lake, Wallowa Co., 1 in basic plumage on 29 December 1994. Details submitted adequately described a Yellow-billed Loon but the photos created some questions. Other birders visiting the area a few days later observed a loon that appeared to be the bird described and photographed earlier. After close examination it was identified as a Common Loon. As there was some question on the identification of this bird the record not accepted.
- 008-95-34 Coos Bay, Coos Co., 1 bird observed 17 December 1995. Not accepted as details were too sketchy and did not fully eliminate Common Loon.

Short-tailed Albatross *Phoebastria albatrus*

- 082-78-01 Pelagic trip on 30 September 1978. Withdrawn by observer.

082-53-02 Sunset Beach, Clatsop Co., a specimen collected on the beach on 30 January 1953. Specimen number 16616 at the Museum of Natural History, University of Puget Sound, Tacoma, WA. Record withdrawn by the Secretary upon receipt of information that the specimen is in fact a Laysan Albatross.

Murphy's Petrel *Pterodroma ultima*

100.1-96-04 80-100 mi West of Florence, Lane Co., 4 birds second week of August 1996. Not accepted as report did not describe enough detail to eliminate other *Pterodroma* species.

Mottled Petrel *Pterodroma inexpectata*

099-72-11 Off mouth Columbia River, Clatsop Co., 1 on 30 September 1972. Not accepted as report was ambiguous as to the bird was actually in Oregon waters. Details written ten years after the fact.

Hawaiian/Galapagos Petrel *Pterodroma phaeopygia/sandwichensis*

098.5/6-11-03 40 mi west of Reedsport, Douglas Co., 1 bird on 24 August 2011. Although reported by an experienced observer the bird was seen in rather poor weather conditions and important identification details were lacking.

Solander's Petrel *Pterodroma solandri*

099.2-09-01 60 mi west of Lane Co. coast, Lane Co., 1 bird on 8 May 2009. Not accepted on reconsideration as the field marks used to identify the species has since been found to be seen on other similar species of *Pterodroma* petrels and is not diagnostic to Solander's.

Cook's Petrel *Pterodroma cookii*

098.3-94-01 75 mi west of Newport, Lincoln Co., 1 bird on 16 August 1994. Not accepted as observation too brief to obtain definite identification on this hard to identify species.

Great-winged Petrel *Pterodroma macroptera*

098.4-07-01 13-15 mi west of Coos Bay, Coos Co., one bird on 26 August 2007. Although the descriptions given were compelling they did not entirely rule out similar species of this very difficult to identify group of birds. The observers admitted limited experience with *Pterodroma* petrels.

Flesh-footed Shearwater *Puffinus carneipes* **Removed from the Review List March 10, 1984**

095.1-82-06 Charleston pelagic, Coos Co., 1 on 17 October 1982.

Manx-type Shearwater *Puffinus* sp.

090/3-80-05 Brookings pelagic trip, Curry Co., 1 on 20 September 1980.

090/3-83-06 15 mi west of Newport, Lincoln Co., 1 adult on 25 August 1983.

Ashy Storm-Petrel *Oceanodroma homochroa*

108-84-01 Pelagic trip, 3 mi off Douglas Co., 12 birds on 27 July 1984.

108-09-03 71-80 mi west of Curry Co., 3 birds on 14 July 2009. Descriptions were brief but compelling for Ashy Storm-Petrel. However, details did not adequately eliminate similar Storm-Petrel species.

Magnificent Frigatebird *Fregata magnificens*

128-63-07 Coquille Point, Coos Co., 1 on 26 July 1963. Not enough details provided.

128-08-09 50 mi west of Tillamook, Tillamook Co., 1 bird on 8 August 2008. This was a report of a sighting without any details describing the bird or how the bird was identified as a Magnificent Frigatebird.

Masked Booby *Sula dactylatra*

114-92-01 Cape Arago State Park, Coos Co., 1 on 18 June 1992. Written description was not consistent with Masked Booby and did not rule out some other species.

114-92-02 Yaquina Bay, Lincoln Co., 1 adult bird on 26 July 1992. Written description was too brief and did not eliminate some other species.

Little Blue Heron *Egretta caerulea*

200-82-01 Malheur NWR, Harney Co., 1 immature on 8 September 1982.

200-85-03 Reedsport, Douglas Co., 1 on 9 June 1985.

200-91-06 Upper Yaquina Bay, Lincoln Co., 1 immature on 29-30 August 1991. Not accepted as details did not rule out Snowy Egret.

200-92-07 Cushman, Lane Co., 1 immature 23-24 August 1992. Not accepted as details did not rule out Snowy Egret.

200-02-08 Klamath Falls, Klamath Co., 1 bird on 2 October 2002. Not accepted as description was very brief and did not rule out immature Snowy Egret.

200-16-14 Finley NWR, Benton Co., 15 May 2016. Incomplete description, lacking details; observer not familiar with species.

[200-17-15](#) Malheur NWR, The Narrows, Harney Co., Aug-Sept 2017. Many photos and videos of two puzzling birds (see record 200-17-16); unable to rule out hybrid, possibly Snowy Egret X Little Blue Heron, or Cattle Egret parentage.

[200-17-16](#)
[Video](#)
[Video](#) Malheur NWR, The Narrows, Harney Co., Aug-Sept 2017. Many photos and videos of two puzzling birds (see record 200-17-15); unable to rule out hybrid, possibly Snowy Egret X Little Blue Heron, or Cattle Egret parentage.

White Ibis *Eudocimus albus*

184-99-01 Summer Lake, Lake Co., four birds on 5 May 1999. Not accepted as details did not eliminate similar white species with black wingtips.

Common Black-Hawk *Buteogallus anthracinus*

345-81-01 Malheur NWR, Harney Co., 1 on 22 May 1981.

Harris's Hawk *Parabuteo unicinctus*

335-79-01 Trout Creek Mts., Harney Co., 1 adult on 12 June 1979. Origin questionable.

Broad-winged Hawk *Buteo platypterus* **Removed from the Review List April 16, 2011**

343-92-07 Waldo Lake Road, Lane Co., 1 bird on 24 October 1992. Not accepted as description and photograph was too brief and did not eliminate similar species.

343-00-11 Brookings, Curry Co., 1 immature bird on 7 February 2000. Not accepted as description not detailed enough to rule out more expected hawk species.

343-03-13 Fields, Harney Co., 1 bird on 18 October 2003. Not accepted as description did not rule out Red-shouldered hawk.

343-06-15 Baskett Slough NWR, Polk Co., 1 bird on 28 April 2006. Not accepted as description did not rule out Red-shouldered Hawk.

Yellow Rail *Coturnicops noveboracensis* **Removed from the Review List April 6, 1985**

215-26-02 Aspen Lake, Klamath Co., a nest photographed on 23 May 1926. In: *Murrelet* 25: 29, 1944. Record not considered because of removal from review list.

Black Rail *Laterallus jamaicensis*

216-07-01 Bayocean Spit, Tillamook Co., 1 bird on 27 August 2007. Not accepted as key field marks not described, and apparently not seen.

Common Gallinule *Gallinula chgallinula*

219-95-07 I-84 east of the Sandy River, Multnomah Co., 2 adults on 31 August 1995. The description submitted fit that of adult gallinules. However, at the time of the observation no American Coots were observed. Yet the next day the observer and several other birders found two juvenile American Coots on the pond where the gallinules were seen; they could not find any gallinules. This species is very rare in Oregon, has occurred only as single individuals, and only during the spring. The record raises questions despite the good description. The Committee decided not to accept the record.

219-12-14 Hart Lake, Lake Co., 24 July 2012. Inadequate documentation, submitted four years after bird was seen.

Whooping Crane *Grus americana*

204-97-01 Owyee River, 15 mi north of Rome, Malheur Co. 1 on 1 May 1997. Description incomplete for Whooping Crane and did not eliminate other white birds.

American Oystercatcher *Haematopus palliatus*

286-86-01 Bandon, Coos Co., 2 birds, apparently adults, on 11 October 1986. Not accepted because other species of black and white oystercatchers could not be eliminated on the basis of the description obtained under foggy conditions.

Wilson's Plover *Charadrius wilsonia*

280-07-02 Warrenton, Clatsop Co., 1 bird on 19 August 2007. Details suggested this species, but did not entirely rule out similar plovers.

Piping Plover *Charadrius melodus*

[277-09-02](#)

Bandon Marsh, Coos Co., 1 bird 29 August 2009. An albinistic plover showing inconclusive plumage or other specific characteristics.

Mountain Plover *Charadrius montanus*

281-85-03

Agate Lake, Jackson Co., 2 birds reported as juveniles on 11 August 1985.

Gray-tailed Tattler *Tringa brevipes*

259.1-76-01

Siletz Bay, Lincoln Co., 1 on 27 September 1976 (photos).

Bristle-thighed Curlew *Numenius tahitiensis*

268-85-02

Pony Slough, Coos Co., 1 on 30 July 1985.

268-00-08

Boiler Bay, Lincoln Co., 1 bird on 29 September 2000. Not accepted as the view of the bird was brief and distant, and lighting may have been a factor.

Hudsonian Godwit *Limosa haemastica*

251-96-15

South Jetty Columbia River, Clatsop Co., 1 juvenile on 7 October 1996. Description was very brief and incomplete. The bird was seen in poor light with much of the plumage characteristics poorly seen.

251-05-20

Canby, Clackamas Co., 1 bird on 28 April 2005. The description was brief and poorly written suggesting Hudsonian Godwit but not giving enough information to eliminate other shorebird species.

251-02-29

Farmer Rd. marsh, Polk Co., 1 bird on 5-6 June 2002. Report submitted 15 years later was brief and lacking details.

Bar-tailed Godwit *Limosa lapponica*

250-84-09

South Jetty Columbia River, Clatsop Co., 1 on 27 April 1984.

Ruff *Calidris pugnax*

260-82-08

Nehalem sewage ponds, Tillamook Co., 1 on 20 September 1982.

260-82-09

South Jetty Columbia River, Clatsop Co., 1 on 20 September 1982.

Sharp-tailed Sandpiper *Calidris acuminata* **Removed from the Review List March 10, 1984**

238-78-02

South Jetty Columbia River, Clatsop Co., 1 on 26 August and 2 on 16 September 1978.

238-80-05

Bandon, Coos Co., 1 on 4 October 1980.

Stilt Sandpiper *Calidris himantopus* **Removed from the Review List April 6, 1985**

233-78-06

Euchre Creek, Curry Co., 1 on 25 August 1978.

233-81-15

Siletz Bay, Lincoln Co., 1 on 16 August 1981.

Curlew Sandpiper *Calidris ferruginea*

- 244-65-01 Sauvie Island, Multnomah Co., 1 in alternate plumage on 10-18 August 1965. Not accepted as description failed to indicate key field marks for species.
- 244-66-02 Sauvie Island, Multnomah Co., 1 in basic plumage on 5 September 1966.
- 244-83-06 Yaquina Bay, Lincoln Co., 1 in basic plumage on 23 October 1983.
- 244-84-07 Meares Lake, Tillamook Co., 1 on 1 September 1984.
- 244-86-12 Manzanita Beach, Tillamook Co., 1 on 15 September 1986. Photos. Not accepted because the photos showed an aberrant Dunlin or a Dunlin with white underfeathers ruffled on the rump by the wind. The bird lacked the distinctive supercilium of a Curlew Sandpiper.
- 244-89-13 South Jetty of the Columbia River, Clatsop Co., 1 bird on 30 September 1989. Not accepted because description and photos indicated bird was a Dunlin.
- 244-95-14 South Jetty of the Columbia River, Clatsop Co., 1 bird on 26 August 1995. The descriptions submitted appeared to be that of a Curlew Sandpiper. However, the slide taken of the bird showed chestnut or dark reddish tertails edges and a back pattern inconsistent with that species. The Committee did not accept this questionable individual.
- 244-15-25 Whalen Island, Tillamook Co., 1 bird on 4 September 2015. Details and poor photo did not completely rule out similar species. Record submitted for reconsideration at 2017 Committee meeting; Committee members felt the documentation was inadequate and the photo did not rule out Stilt Sandpiper.

Long-toed Stint *Calidris subminuta*

- 242.1-78-01 Bayocean Spit, Tillamook Co., 1 on 2-3 September 1978 (photos). This record had been accepted but was rejected after reconsideration.
- 242.1-82-03 South Jetty of the Columbia River, Clatsop Co., 1 on 11 and 13 September 1982 (photos). This record had been accepted but was rejected upon reconsideration.
- 242.1-82-04 Florence, Lane Co., 1 on 15 September 1982.
- 242.1-83-06 Bayocean Spit, Tillamook Co., 1 on 18 July 1983 (photos).
- 242.1-98-07 New River, Coos Co., 1 juvenile on 9 August 1998. Not accepted as report did not mention key field points and was not detailed enough for this exceedingly difficult identification.
- 242.1-07-08 Tillamook Bay, Tillamook Co., 2 September 2007. Long-toed Stint is an exceedingly difficult species to separate from Least Sandpiper. Details given in this report did not adequately describe the differences between the two species.

Red-necked Stint *Calidris ruficollis*

- 242.2-79-01 South Jetty of the Columbia River, Clatsop Co., 1 on 15-16 September 1979 (photos).
- 242.2-80-02 Bayocean Spit, Tillamook Co., 1 on 17 August 1980 (photos). This record had been accepted but was rejected upon reconsideration.
- 242.2-81-03 Bayocean Spit, Tillamook Co., 1 on 19 and 23 August 1981. This previously deferred record was not accepted because of insufficient details.
- 242.2-81-04 Bayocean Spit, Tillamook Co., 1 on 27 September 1981. This previously deferred record was not accepted because of insufficient details.
- 242.2-83-09 South Jetty of the Columbia River, Clatsop Co., 1 juvenile on 22 August 1983.
- 242.2-84-11 South Jetty of the Columbia River, Clatsop Co., 1 on 27, 28, and 31 August 1984 (photos).
- 242.2-82-12 withdrawn
- 242.2-88-13 Tillamook Bay, Tillamook Co., 1 juvenile bird on 24 August 1988. Not accepted because description did not rule out similar species.
- 242.2-88-14 Tillamook Bay, Tillamook Co., 1 juvenile bird on 7 September 1988. Not accepted because description did not rule out similar species.
- 242.2-89-15 South Jetty of the Columbia River, Clatsop Co., 1 adult bird on 15 August 1989. Not accepted because description did not rule out similar species, and photos indicated bird was adult Western Sandpiper.
- 242.2-01-18 Siltcoos Beach, Lane Co., 1 bird on 6 September 2001. Description did not rule out other similar shorebirds.

Little Stint *Calidris minuta*

- 242.3-88-03 Warrenton, Clatsop Co., 1 juvenile bird on 2 August 1988. Not accepted because description did not rule out similar species.
- 242.3-94-04 Forest Grove Ponds, Washington Co., 1 juvenile bird on 5 September 1994. Not accepted as identification did not completely rule out other similar species.

Temminck's Stint *Calidris temminckii*

- 241.1-84-01 South Jetty of the Columbia River, Clatsop Co., 1 in alternate plumage on 17 August 1984.
- 241.1-77-02 Toledo, Lincoln Co., 1 bird on 6 August 1977. Not accepted as observation too brief to obtain definite identification on this rare and hard to identify species.

241.1-97-03 Yaquina River, Lincoln Co., 1 bird 20-21 September 1997. Not accepted as description did not rule out Least Sandpiper.

White-rumped Sandpiper *Calidris fuscicollis*

240-75-01 Sauvie Island, Multnomah Co., 1 on 26 August 1975.

240-87-02 Seaside, Clatsop Co., 2 adult birds on 18 August 1987. Not accepted because description did not rule out similar species.

240-90-03 Beach at South Jetty Yaquina Bay, Lincoln Co., 19 August 1990. Not accepted because description and voice did not rule out similar species.

Spoonbill Sandpiper *Calidris pygmaea*

245-82-01 Bayocean Spit, Tillamook Co., 1 juvenile on 21-22 August 1982 (photos).

Buff-breasted Sandpiper *Calidris subruficollis* **Removed from the Review List April 6, 1985**

262-78-05 Agate Lake, Jackson Co., 1 on 28 August 1978 (photo).

262-84-17 Meares Lake, Tillamook Co., 1 on 3 September 1984. Record not considered because of removal of species from the review list.

Semipalmated Sandpiper *Calidris pusilla* **Removed from the Review List December 4, 1982**

246-72-01 Fern Ridge Reservoir, Lane Co., 1 on 21 August 1972 (photo).

246-76-02 South Jetty of the Columbia River, Clatsop Co., 1 on 18 September 1976 (photos). This record had been accepted but was rejected upon reconsideration.

246-77-03 Bayocean Spit, Tillamook Co., 1 in the fall of 1977.

246-80-10 Cold Springs NWR, Umatilla Co., 1 on 26 August 1980.

246-80-12 Coos Bay, Coos Co., 2 on 6 December 1980 (photos).

246-82-18 Ladd Creek, Union Co., 1 on 14 August 1982.

Pin-tailed Snipe *Gallinago stenura*

230.3-14-01 Langlois, Curry Co., 1 bird on 25 November 2014. Identification based primarily on the unfamiliar voice heard without verifying recording.

South Polar Skua *Stercorarius maccormicki* **Removed from on the Review List October 31, 1981**

035.2-81-06 Cape Arago, Coos Co., 1 on 15 September 1981. Record not considered because of removal of species from the review list.

Thick-billed Murre *Uria lomvia*

031-76-01 Boardman SP, Curry Co., 1 on 21 August 1976.

- 031-76-02 Coos Bay, Coos Co., 1 injured bird on 19 December 1976. This record had been accepted, but the decision was reversed upon reconsideration. New identification information in recently published books indicated that according to the description the bird was most likely a first-winter Common Murre.
- 031-89-05 Yaquina Bay, Lincoln Co., 1 bird in summer plumage on 14 October 1989. Description and photos did not rule out Common Murre.
- 031-89-06 Boiler Bay, Lincoln Co., 1 bird in summer plumage on 12 November 1989. Description did not rule out Common Murre.
- 031-90-07 Yachats, Lincoln Co., 1 bird in alternate plumage on 30 December 1990. Description was that of Common Murre.
- 031-91-08 Yachats, Lincoln Co. 1 basic-plumaged adult on 1 January 1991. Description did not rule out Common Murre.
- 031-96-10 Boiler Bay, Lincoln Co., 1 basic-plumaged adult on 14 November 1996. Not accepted as description and sketch did not rule out Common Murre.
- 031-02-12 Bandon, Curry Co., 1 bird on 26 June 2002. Not accepted as brief description did not fully rule out Common Murre.
- 031-18-18 Tierra del Mar beach, Tillamook Co., 1 flyover 8 January 2018. Not accepted as sighting was brief and at a distance; could not rule out other similar species.

Long-billed Murrelet *Brachyramphus perdix*

- 021.1-03-02 Cape Arago, Coos Co., 1 bird on 7 September 2003. Not accepted as key field marks were not described. Description did not rule out similar species.

Kittlitz's Murrelet *Brachyramphus brevirostris*

- 024-69-01 Coos Bay, Coos Co., 1 on 24 July 1969.
- 024-78-02 Tillamook Bay, Tillamook Co., 1 on 11 February 1978.
- 024-92-03 Boiler Bay, Lincoln Co., 1 on 6 October 1992. Not accepted as description did not rule out Pigeon Guillemot or some other alcid.

Scripps's Murrelet *Synthliboramphus scrippsi*

- 025-89-06 Boiler Bay, Lincoln Co., 1 on 24 October 1989.

Craveri's Murrelet *Synthliboramphus craveri*

- 026-03-01 South Jetty Columbia R., Clatsop Co., 1 bird on 21 June 2003. Bird seen at some distance and for a brief period. Details did not rule out similar alcids.

Parakeet Auklet *Aethia psittacula*

- 017-86-10 0.5-1 mi off Cape Meares, Tillamook Co., 1 on 7 November 1986. Not accepted because the accuracy of the sighting at that distance was questionable.

- 017-05-14 Tillamook Bay, Tillamook Co., 1 bird on 21 February 2005. Although the description described an alcid it was not complete enough to adequately eliminate Rhinoceros Auklet or other alcid species.
- 017-09-18 10 km west of Rockaway, Tillamook Co., 1 bird on 27 March 2009. The observer is a highly experienced seabird observer, but this description of a flying bird was very sparse and incomplete.

Crested Auklet *Aethia cristatella*

- 018-85-01 1.5 mi offshore and 2.5 mi south of Cape Blanco, Curry Co., 1 on 1 September 1985. Not accepted as description did not fit this species.

[018-10-02](#)

Port Orford, Curry Co., 1 bird on 14 October 2010. Poor photos did not adequately identify the species. There were no written details.

- 018-12-03 Boiler Bay, Lincoln Co., 3 birds on 17 December 2012. Flying birds passing 200 yards offshore. Sighting very brief and at some distance. There appeared to be some hesitation by the observer on the accuracy of the identification.

Black-headed Gull *Chroicocephalus ridibundus*

- 055.1-77-01 Sunset Beach, Clatsop Co., 1 on 27 June 1977 (photos). This record had been accepted but was rejected upon reconsideration.
- 055.1-82-03 Shore Acres SP, Coos Co., 2 adults in basic plumage on 11 November 1982.
- 055.1-90-04 Boiler Bay SP, Lincoln Co., 1 adult in basic plumage on 26 November 1990. Not accepted as sighting was too brief, and description lacked sufficient details.

Little Gull *Hydrocoloeus minutus*

- 060.1-78-02 Newport, Lincoln Co., 1 on 20 August 1978.

Ross's Gull *Rhodostethia rosea*

- 061-93-02 Yaquina Bay, Lincoln Co., 1 immature bird on 18-19 April 1993. The description of this individual was of a bird in transitional plumage. It was seen at a distance and many identifiable field points were not seen and some that were described could well have been distorted by lighting and distance. This report did not completely eliminate other species of small gulls.
- 061-95-04 Newport, Lincoln Co., 1 adult on 26 March 1995. Not accepted as the Committee felt there were too few details for such a rarity. The description was brief and did not fully rule out similar species.

Laughing Gull *Leucophaeus atricilla*

- 058-76-01 Malheur NWR, Harney Co., 1 on 29 May 1976.
- 058-80-02 Newport, Lincoln Co., 1 on 4 May 1980.
- 058-80-03 Clatsop Co. (Ilwaco, Washington, pelagic trip), 1 on 8 June 1980.

- 058-81-04 Seal Rock, Lincoln Co., 1 on 2 January 1981
- 058-68-06 South Jetty Columbia River, Clatsop Co., 1 on 17 July 1968. Not accepted because Franklin's Gull and other juvenile gull species were not eliminated by the description. The sighting was of a bird in flight; key field marks were not described.
- 058-96-07 Heceta Bank, Douglas Co., 1 first-winter bird on 17 September 1996. The bird was seen as it flew past and away from the observer. The sighting was rather brief and at an odd angle. The possibility of a misidentification was too great for the Committee to accept this report.

“Common” Gull *Larus canus*

[55a-05-01](#)

4.5 mi west of Yachats, Lincoln Co., 1 immature on 2 January 2005. Not accepted as description did not completely rule out Mew Gull.

Yellow-footed Gull *Larus livens*

049.1-84-01 Manzanita Beach, Tillamook Co., 1 adult on 15 October 1984.

“Vega” Herring Gull *Larus argentatus vegae*

052-96-01 Yaquina Bay, Lincoln Co., 1 adult on 1 December 1996. Not accepted as description incomplete and did not rule out other gull species.

052-14-02 South Jetty Yaquina Bay, Lincoln Co., one adult on 27 October 2014. Although the bird showed a reddish eye-ring details and photos did not entirely rule out similar species.

Iceland Gull *Larus glaucooides*

- 043-76-01 Sunset Beach, Clatsop Co., 1 on 6 March 1976 (photos).
- 043-77-02 Yaquina Head, Lincoln Co., 1 on 25 December 1977.
- 043-80-03 Tillamook, Tillamook Co., 1 on 10 May 1980 (photos).
- 043-82-04 Cannon Beach, Clatsop Co., 1 on 18 April 1982 (photos).
- 043-90-05 Yaquina Bay, Lincoln Co., 1 adult bird on 21 January 1990. Not accepted as there were not enough details in the report to eliminate Thayer's Gull or a hybrid.
- 043-91-06 Sauvie island, Multnomah Co., subadult bird 10-11 March 1991. Not accepted as details did not eliminate other gull species and photo appears to be a hybrid bird.
- 043-93-08 Sauvie Island, Multnomah Co., 1 on 13 March 1993. Not accepted as details did not rule out similar species.
- 043-91-09 Yachats, Lincoln Co., 1 on 23-24 March 1991. Not accepted as details did not rule out similar species.

- 043-91-10 7 mi south of Yaquina Bay, Lincoln Co., 1 on 15 March 1991. Not accepted as details did not rule out similar species.
- 043-91-11 Yaquina Bay, Lincoln Co., 1 on 21 April 1991. Not accepted as details did not rule out similar species and best fit a Glaucous Gull.
- 043-96-13 Sauvie Island, Multnomah Co., 1 on 2 March 1996. Not accepted as details did not rule out similar species.
- 043-94-14 Winchuck River mouth, Curry Co. 1 bird on 19 March 1994. Not accepted as details did not rule out similar species and photos indicated a hybrid bird.
- 043-03-16 Mouth Siuslaw River, Lane Co., 1 first-cycle bird on 22 February 2003. Not accepted as description did not completely eliminate similar gull species.
- [043-07-17](#) Portland, Multnomah Co., 1 imm. on 23 February 2007. Not accepted as Thayer's Gull not ruled out.

Lesser Black-backed Gull *Larus fuscus*

- 050-82-01 Fern Ridge Reservoir, Lane Co., 1 on 23 October 1982.
- 050-16-06 4 mi. west of McMinnville, Yamhill Co., 1 adult on 4 February 2016. Details and rather poor photos did not eliminate California or other gull species.

Slaty-backed Gull *Larus schistisagus*

- 048-89-01 Yaquina Bay, Lincoln Co., 1 third cycle on 23 October 1989. Not accepted because description did not rule out similar species or hybrids.
- 048-00-07 Hammond, Clatsop Co., 1 adult 4-6 November 2000. Not accepted as photograph of bird indicated Western X Glaucous-winged Gull with predominantly Western Gull features.

Great Black-backed Gull *Larus marinus*

- 047-82-01 Cape Blanco, Curry Co., 1 in first-cycle plumage on 26 December 1982.
- 047-91-02 Moolack Beach, Lincoln Co., 1 first-cycle bird on 30 January 1991. Details did not rule out hybrids or other gull species.

Least Tern *Sternula antillarum*

- 074-78-03 Newport pelagic trip, Lincoln Co., 1 on 30 September 1978. This record had been accepted but was rejected upon reconsideration.

Aleutian Tern *Sterna aleutica*

- 073-14-01 112mi. W. of Coos County, Coos Co., one apparent subadult bird. Very detailed and extensive details did not entirely rule out similar species. Very poor photos were not convincing.

Elegant Tern *Thalasseus elegans*

066-92-21 Curry County, multiple sightings of many individuals 23 June-19 August 1992. Record not reviewed as the species was removed from the review list.

Eurasian Collared Dove *Streptopelia decaocto*

315.4-98-02 Portland, Multnomah Co., 1 bird on 22 May 1998. Not accepted as video and voice did not rule out Ringed Turtle-Dove.

315.4-99-06 Fields, Harney Co., 1 bird on 19 June 1999. Not accepted as description very poor and did not entirely rule out other dove species.

Spotted Dove *Streptopelia chinensis*

315.1-69-01 Portland, Multnomah Co., 1 in February 1969 (photo). Origin questionable.

Yellow-billed Cuckoo *Coccyzus americanus*

387-89-13 8 mi west of Mt. Vernon, Grant Co., 1 calling bird on 28 May 1989. Not accepted as incomplete song heard only once insufficient to identify species.

387-15-24 Columbia slough, north Portland, Multnomah Co., 26 July 2015. Heard-only report that did not rule out other possible species.

387-15-25 Ross Island, Portland, Multnomah Co., 4 September 2015. Heard-only report; insufficient description and documentation.

387-16-27 Bend, Harney Co., 6 September 2016., 1 bird. Incomplete description, no vocalization heard.

Black-billed Cuckoo *Coccyzus erythrophthalmus*

388-78-01 Newport, Lincoln Co., 1 on 3 September 1978.

388-80-02 Adrian, Owyhee River Bridge, Malheur Co., 1 heard on 5 July 1980.

388-82-03 Powder River along Highway 7, Baker Co., 1 on 17 June 1982 .

Greater Roadrunner *Geococcyx californianus*

385-85-01 Roxy Ann Butte, Jackson Co., 1 bird on 13 September 1985. Record withdrawn by observer.

385-85-02 Near Talent, Jackson Co., 1 in December 1985.

Northern Hawk Owl *Surnia ulula*

377-78-02 Portland, Multnomah Co., 1 on 25 November 1978.

377-76-04 Tillamook Bay, Tillamook Co., 1 adult on 24 January 1976.

Boreal Owl *Aegolius funereus*

371-96-06 Minam St. Pk., Union Co., 1 calling bird on 25 October 1996. Not accepted as description of calls did not rule out other bird species.

371-01-07 Three Sisters Wilderness, Deschutes Co., 1 calling bird on 17 September 2001. Not accepted as description of calls did not rule out Saw-whet Owl.

Lesser Nighthawk *Chordeiles acutipennis*

421-10-02 Krumbo Reservoir, Harney Co., 1 bird on 5 June 2010. Not accepted as photographic comparisons of the exceptionally poor photos of this bird to photographs of known Lesser Nighthawks were not conclusive.

Chuck-will's-widow *Antrostomus carolinensis*

416-11-01 Fields, Harney Co., 1 calling bird on 10 June 2011. Although report indicated the call was loud and definitely of a Chuck-will's-widow there was the possibility of sources other than this species. The call was not recorded.

Eastern Whip-poor-will *Antrostomus vociferus*

417-77-01 Frenchglen, Harney Co., 1 on 8 October 1977.

Chimney Swift *Chaetura pelagica*

423-15-04 Craig Lake, Linn Co., 24 July 2015. Insufficient description does not rule out Vaux's Swift.

423-17-05 Residential neighborhood Corvallis, 1 bird 6 August 2017. Observer had brief look with no optics; cannot rule out Vaux's Swift.

Magnificent Hummingbird *Eugenes fulgens*

426-72-01 Saunders Lake, Coos Co., 1 all-white bird 2-15 September 1972. This previously-deferred record was not accepted because the motion pictures of this bird did not provide sufficient information for accurate identification.

426-78-02 Gold Beach, Curry Co., 1 on 3 June 1978.

426-04-03 Lincoln, Polk Co., 1 bird 1-3 May 2004. Rather poor photos were suggestive, but on examination the bird showed characteristics that best fit Anna's Hummingbird.

Ruby-throated Hummingbird *Archilochus colubris*

428-99-01 Myrtle Creek, Douglas Co., 1 male October to second week of December 1999. Not accepted as report was too brief and did not eliminate similar hummingbird species.

428-04-02 Fields, Harney Co., 1 bird on 23 May 2004. Photo did not clearly show diagnostic field marks of the species. Very difficult to separate female Ruby-throated from the more regular Black-chinned Hummingbird.

Costa's Hummingbird *Calypte costae*

430-83-07 Roseburg, Douglas Co., a male from 8-15 June 1983 (photos).

430-94-28 Agate Beach, Lincoln Co., a male from 10 November-13 December 1994. The descriptions submitted did not completely describe a Costa's Hummingbird. The

feeder attracted a good number of Anna's Hummingbirds and there was considerable confusion and discussion during the period of observation about a Costa's actually being there. Because of the doubt raised the Committee did not accept this record.

Broad-billed Hummingbird *Cynanthus latirostris*

441-83-01 Charleston, Coos Co., 1 immature male on 18 October 1983. Not accepted as description incomplete and not sufficient to eliminate other hummingbird species.

White-eared Hummingbird *Hylocharis leucotis*

440.1-83-01 Neskie Beach, Curry Co., 1 on 28-29 November 1983.

Yellow-bellied Sapsucker *Sphyrapicus varius*

402-69-01 Nyssa, Malheur Co., 1 in September 1969.

402-87-06 Catherine Creek State Park, Union Co., 1 on 4 June 1987. Not accepted because details were not sufficient, considering the variation in plumage of the closely related sapsucker species.

402-83-07 Frenchglen, Harney Co., 1 on 30 September 1983. Not accepted because details were not sufficient considering the variation in plumage of the closely related sapsucker species.

[402-08-24](#)

Toledo, Lincoln Co., 12 April 2008. Photos appeared to be of a Red-naped Sapsucker as observer suspected.

Eurasian Kestrel *Falco tinnunculus*

359.1-08-01 Tualatin NWR, Washington Co., 1 bird on 20 July 2008. The sighting was rather brief and the details of the sighting were not as extensive as would be needed for such a rare bird. Possible captive origin was not covered.

Gyr Falcon, *Falco rusticolus* **Removed from the Review List April 13, 2002**

354-91-08 Nehalem Sewage Ponds, Tillamook Co., 1 dark brown bird on 21 May 1991. Not accepted as description did not rule out Peregrine Falcon.

354-91-11 Harbor, Curry Co., 1 gray bird on 30 November 1991. Not accepted as the description was too brief and did not rule out an immature Peregrine Falcon.

354-91-12 Record Withdrawn.

354-92-13 Bandon, Coos Co., 1 adult gray-morph bird on 16 October 1992. Not accepted as description did not rule out Peregrine Falcon.

354-96-20 Bayocean Spit, Tillamook Co., 1 subadult gray-morph bird on 1 January 1996. This record was very brief and did not give enough detail to completely

eliminate a Peregrine Falcon. A large falcon in flight is very difficult to identify to species.

- 354-95-21 Baskett Slough NWR, Polk Co., 1 dark bird on 9 November 1995. Details of this sighting were of a flying bird and were based more on size and coloration than any other field point. As the description did not eliminate other large falcons the record was not accepted.
- 354-95-23 Finley NWR, Benton Co., 1 brown immature on 31 December 1995. Not accepted as description was too sketchy and did not rule out similar appearing species.
- 354-97-25 Netarts Bay, Tillamook Co., 1 gray bird on 27 November 1997. Not accepted as description was very brief and did not describe key field points for Gyrfalcon, and did not adequately eliminate other hawk species.
- 354-98-31 Finley NWR, Benton Co., 1 light-morph bird on 21 February 1998. Not accepted as details were incomplete and confusing. Key field points were missing.

Eastern Wood-Pewee *Contopus virens*

- 461-01-03 Owyhee State park, Malheur Co., 1 bird on 12 June 2001. Not accepted as distinctive song not heard and description did not rule out Western Wood-Pewee.
- [461-09-04](#) Fields, Harney Co., 1 bird on 24 May 2009. Details and photos did not adequately eliminate Western Wood-Pewee.

Alder Flycatcher *Empidonax alnorum*

- 466.1-80-01 Wallowa Fish Hatchery, Enterprise, Wallowa Co., 1 singing on 21 June 1980.
- 466.1-82-02 P Ranch, Malheur NWR, Harney Co., 1 from 13-16 June 1982
- 466.1-82-03 Tiller, Douglas Co., 1 on 9 July 1982.
- 466.1-82-04 Tumalo SP, Deschutes Co., 1 on 2 October 1982.
- 466.1-83-05 1.5 mi northeast of Red Bridge State Park, Union Co., 2 birds and nest with 4 eggs. Nest and 3 eggs collected. Nest and eggs at ODFW Regional Headquarters in LaGrande. 4 June to 2 July 1983.
- 466.1-83-06 P Ranch, Malheur NWR, Harney Co., 1 singing on 3-4 June 1983.
- 466.1-84-07 P Ranch, Harney Co., 1 singing bird on 10 June 1984.
- 466.1-84-08 1.5 mi northeast Red Bridge State Park, Union Co., 1 singing bird on 16 June 1984.

- 466.1-84-09 P Ranch, Harney Co., 1 singing bird on 2 June 1984.
- 466.1-92-10 Malheur NWR, Harney Co., 1 singing bird on 5 June 1992.
- 466.1-06-11 15 mi east of Joseph, Wallowa Co., 1 singing bird on 24 June 2006. Record not accepted as no voice recording was made. Voices of Alder and Willow Flycatchers are so similar separation can not be verified without voice recording.
- 466.1-07-12 Malheur NWR, Harney Co., 1 bird on 25 May 2007. Bird was identified by song, but no recording was obtained. Local Willow Flycatchers give a similar song. Species determination can only be made by sonogram analysis.

Least Flycatcher *Empidonax minimus*

- 467-82-05 Wickiup Campground, Grant Co., 1 on 23 July 1982.
- 467-83-06 Mouth of Ladd Creek, Union Co., 1 on 9 September 1983.
- 467-87-14 Sauvie Island, Multnomah Co., 1 on 15 August 1987. This record was not accepted due to insufficient details and because other *Empidonax* were not eliminated.
- 467-88-17 Fields, Harney Co., 1 bird on 30 May 1988. Not accepted because description did not rule out similar species.
- 467-90-19 Hdq. Malheur NWR, Harney Co., 1 bird on 1 June 1990. Not accepted as Committee felt the bird was a Hammond's Flycatcher.
- 467-85-27 Thornton Creek, Lincoln Co., 1 bird seen 13 August 1985. This bird was in heavy molt and gave only one call that was inconclusive. Record not accepted as a silent bird in this plumage would be extremely difficult to correctly identify to species.
- 467-87-28 Thornton Creek, Lincoln Co., 1 bird seen 1 September 1987. This bird also showed signs of molt and was silent. Hammond's Flycatcher regularly molts prior to migration but Least Flycatchers do not molt until they reach their wintering areas. Record not accepted as a silent bird in molt would be extremely difficult to correctly identify to species.
- 467-90-29 Thornton Creek, Lincoln Co., 1 bird observed 24 August 1990. The plumage description provided was not complete enough to identify a Least Flycatcher and eliminate other *Empidonax* species. A persistently calling bird in late August is highly unusual and raised questions on what was actually heard. There were enough questions for the Committee to not accept the record.
- 467-97-36 West of Burns Junction, Malheur Co., 1 adult bird 19-20 June 1997. Not accepted as details did not eliminate other species of *Empidonax* flycatchers.
- 467-98-33 Fields, Harney Co., 1 bird on 18 May 1998. Description of the bird was brief and not complete enough to entirely eliminate other *Empidonax* flycatchers.

Eastern Phoebe *Sayornis phoebe*

- 456-76-01 Malheur NWR, Harney Co., 1 on 14 May 1976.
- 456-94-03 Sage Hen Hill Rest Area, Harney Co., 1 on 29 May 1994. Not accepted as description and habits of bird were similar to Willow Flycatcher seen the next day.
- 456-02-10 Malone Springs, Klamath Co., 1 bird on 6 June 2002. Details did not completely rule out other similar species. Observer did not see distinctive tail-pumping behavior.
- [456-08-14](#) P Ranch, Harney Co., 1 bird on 31 August 2008. Poor, dark photo was inconclusive as to species. Details did not rule out similar flycatchers.
- 456-16-25 Along Klamath River in Klamath Co., 1 bird on 27 August. Details did not rule out other possible flycatchers.

Great-crested Flycatcher *Myiarchus crinitus*

- 452-81-01 Smith Rocks SP, Deschutes Co., 1 on 30 June 1981.

Cassin's Kingbird *Tyrannus vociferans*

- 448-99-01 Malheur NWR, Harney Co., 1 bird 29-30 May 1999. Not accepted as bird not well described and description did not eliminate Western Kingbird.

Scissor-tailed Flycatcher *Tyrannus forficatus*

- 443-87-02 North Bend, Coos Co., 1 immature on 10 August 1987. Not accepted because description did not rule out immature Western Kingbird.
- 443-93-06 South Jetty Columbia River, Clatsop Co., 1 immature bird on 12 November 1993. Not accepted as details did not rule out Mockingbird or some other similar species.
- 443-04-18 Beaverton, Washington Co., 1 bird 18 July 2004. The rather brief description did not entirely rule out other long-tailed species.

Bell's Vireo *Vireo bellii*

- 633-85-02 Malheur NWR, Harney Co., 1 on 26 May 1985 (photo).
- 633-91-03 Hdq. Malheur NWR, Harney Co., 1 bird on 4 May 1991. Not accepted as details did not rule out similar species.
- 633-95-04 Hdq. Malheur NWR, Harney Co., 1 bird on 22 May 1995. Not accepted as details did not completely rule out similar appearing species.

Plumbeous Vireo *Vireo plumbeus*

- 629.1-99-01 Stukel Mountain, Klamath Co., 1 bird on 19 June 1999. This species is notoriously difficult to separate from Cassin's Vireo. This report did not mention key field points that would have identified it as a Plumbeous Vireo.

- 629.1-01-02 Indian Ford Creek, Deschutes Co., 1 bird on 25 May 2001. Not accepted as details did not adequately eliminated Cassin's Vireo.
- 629.1-05-07 Portland, Multnomah Co., 21 April 2005. The description did fit a Plumbeous Vireo, but did not entirely rule out a very pale Cassin's. More detail was needed to accept this very early migrant bird.
- 629.11-14-11 McCully Creek, Wallowa Co., one bird on 25 May 2014. Details and photo did not rule out very similar faded Cassin's Vireo.

Blue-headed Vireo *Vireo solitarius*

- 629-98-02 Hdq. Malheur NWR, Harney Co., 1 adult male on 9 September 1998. Not accepted as details and photos did not adequately rule out Cassin's Vireo.

Philadelphia Vireo *Vireo philadelphicus*

- 626-78-01 Newport, Lincoln Co., 1 on 18 August 1978.
- 626-83-02 Cape Blanco, Curry Co., 1 on 7 June 1983.
- 629-07-07 Oregon City, Clackamas Co., 1 bird on 1 September 2007. Fall vireos can be very difficult to identify. This description was too sketchy to eliminate Warbling Vireo or other species.
- [629-09-08](#) Headquarters Malheur NWR, Harney Co., 1 bird on 5 September 2009. Not accepted as photo did not show field marks of a Philadelphia Vireo and appeared to be a very bright Warbling Vireo.

Yellow-billed Magpie. *Pica nuttalli*.

- 476-85-01 Near Fort Klamath, Klamath Co., 1 on 4 June 1985.
- 476-87-02 Three mi west of Redmond, Deschutes Co., 1 on 1 February 1987. Several members of the OBRC considered the identification was probably correct but the bird would have been of questionable origin; others felt it may have been a Black-billed Magpie with yellow food or other matter in its beak. This species is not known to wander from the central California region where it is indigenous.
- 476-94-03 Summer Lake SWA, Lake Co., 1 bird on 18 September 1994. Not accepted as key field marks of yellow skin about eyes were not seen.

Verdin *Auriparus flaviceps*

- 746-82-01 Painted Hills SP, Wheeler Co., on 2 February 1982.

Sedge Wren *Cistothorus platensis*

- 724-08-03 EE Wilson State Wildlife Area, Benton Co., 1 bird on 4 November 2008. The observation was brief and the description incomplete and did not rule out other species.

724-13-04 EE Wilson WMA, Polk Co., 1 skulking bird on 5 January 2012. Although details suggest Sedge Wren they do not entirely rule out Marsh Wren.

Northern Wheatear *Oenanthe oenanthe*

765-78-02 Malheur NWR, Harney Co., 1 on 25 May 1978 (photo).

Brown Thrasher *Toxostoma rufum*

705-79-03 Monument, Grant Co., 1 on 22 June 1979.

Eastern Yellow Wagtail *Motacilla tschutschensis*

696-02-03 Summit Diamond Peak, Lane Co., 1 adult on 16 October 2002. Description did not entirely rule out a bright Pipit. Location would be highly unlikely for the species.

696-14-05 Near Halsey, Linn Co., one calling bird on 5 February 2014. Brief sighting of a flying calling bird. Very detailed and extensive description did not rule out similar species. Identification based primarily on calls.

White Wagtail *Motacilla alba*

694-17-10 Cape Blanco Rd, a mile east of ocean, 1 bird on 26 September 2017. Insufficient description does not rule out other similar species.

Olive-backed Pipit *Anthus hodgsoni*

[698.2-06-01](#) Hines, Harney Co., 1 bird on 8 March 2006. Not accepted as description and photos did not rule out other similar species.

Red-throated Pipit *Anthus cervinus*

699-00-01 Sauvie Island, Multnomah Co., 2 birds on 21 April 2000. Not accepted as photos and descriptions did not rule out Savannah Sparrow or some other species of pipit.

699-03-03 N. Spit Coos Bay, Coos Co., 1 bird on 23 September 2003. Identified mainly on calls with poor looks at plumage. Description not detailed enough to accept.

Sprague's Pipit *Anthus spragueii*

700-81-01 Hart Mt., Lake Co., 1 on 22 September 1981.

700-88-02 Double O Ranch Road, Malheur NWR, Harney Co., 1 on 4 June 1988. Not accepted as description did not rule out similar species.

700-90-03 Malheur NWR, Harney Co., 1 bird on 21 May 1990. Not accepted as photo appears to be of immature Horned Lark.

700-94-04 Lower Pit Lake - Lamola Lake area, Douglas Co., 1 juvenile bird on 8 July 1994. Not accepted as description describes juvenile Horned Lark.

Phainopepla *Phainopepla nitens*

620-61-01 Medford, Jackson Co., 1 male on 15 March 1961, In: *Murrelet* 47: 76, 1966.

- 620-87-04 Talent, Jackson Co., 1 bird 11 November 1987 to 19 February 1988. Not accepted as photo indicated bird was possible Steller's Jay.
- 620-06-07 Headquarters Malheur NWR, Harney Co., 1 bird on 11 May 2006. Brief and incomplete description did not adequately describe a Phainopepla.
- 620-17-12 EE Wilson Wildlife Area, Benton Co., 1 bird on 9 April 2017. Observation was brief, with poor lighting and partially obscured view.

Smith's Longspur *Calcarius pictus*

- 537-76-01 Yaquina Head, Lincoln Co., 1 on 17 October 1976 (photos).

Chestnut-collared Longspur *Calcarius ornatus*

- 538-87-05 South Jetty of the Columbia River, Clatsop Co., 1 on 6 October 1987. Not accepted because the description did not eliminate McCown's Longspur.
- 538-01-11 North Spit Coos Bay, Coos Co., 1 bird on 26 October 2001. Not accepted as description much too brief to identify to species.
- 538-99-17 North Spit Coos Bay, Coos Co., 1 bird 7-8 November 1999. Not accepted as details were brief and incomplete and did not eliminate other species.
- 538-09-19 Zumwalt Prairie Preserve, Wallowa Co., 1 bird on 24 May 2004. Although the observer was experienced with the species the report was brief and lacked details. It did not eliminate similar species.

McCown's Longspur *Rhynchophanes mccownii*

- 539-05-06 Lower Klamath NWR, Klamath Co., 1 winter plumage female on 6 January 2005. The description was very brief and did not give enough detail to eliminate similar species. The distinctive tail pattern was not apparently observed.

Ovenbird *Seiurus aurocapillus* **Removed from the Review List January 11, 1986**

- 674-80-04 Three Mile Ranch, Harney Co., 1 on 3 June 1980.

Blue-winged Warbler *Vermivora cyanoptera*

- 641-70-01 Elk Lake, Marion Co., 1 on 27 August 1970.
- 641-84-02 Near Elk Meadows trailhead at the base of the southeast side of Mt. Hood, Hood River Co., 1 adult (probably a male) on 5 August 1984. Record had been accepted, but was rejected on reconsideration for unconvincing details.
- 641-92-03 10 mi west of Burns, Harney Co., 1 bird on 18 May 1992. Not accepted as details unconvincing and did not rule out similar species.

Black-and-white Warbler *Mniotilta varia* **Removed from the Review List December 4, 1982**

- 636-79-05 Washburn Wayside, Lane Co., 1 on 10 June 1979.

- 636-82-16 Salem, Marion Co., 1 on 20+ November 1982. Not reviewed because the species was dropped from the Review List.
- Tennessee Warbler** *Oreothlypis peregrina* **Removed from the Review List December 4, 1984**
647-77-04 Red Bridge Campground, Union Co., 1 on 27 August 1977.
- 647-80-09 La Grande, Union Co., 2, presumably an adult and an immature, on 20-22 August 1980. This record had been accepted, but was rejected on reconsideration because of insufficient and confusing details.
- 647-80-10 Davis Lake, Klamath Co., 1 adult on 4 September 1980.
- 647-81-12 Portland, Multnomah Co., 1 on 3 May 1981. This record had been accepted, but was rejected on reconsideration because of insufficient details.
- 647-81-14 Roseburg, Douglas Co., 1 or 2 adults on 14 May 1981. Record had been accepted, but was rejected on reconsideration as description did not rule out similar species.
- 647-82-18 Roseburg, Douglas Co., 1 male in alternate plumage on 27 April 1982. Record had been accepted, but was rejected on reconsideration as details did not rule out similar species.
- Virginia's Warbler** *Oreothlypis virginiae*
644-85-04 Spencer's Butte, Lane Co., 1 adult in alternate plumage on 5 May 1985.
- 644-85-05 Cape Blanco, Curry Co., 1 immature on 17 August 1985.
- 644-91-08 Indian Ford Creek, Deschutes Co., 2 birds on 25 May 1991. Not accepted as observation too brief, and details incomplete.
- 644-95-09 Hdq. Malheur NWR, Harney Co., 1 bird on 22 May 1995. Not accepted as description did not eliminate similar species. Observer did not note yellow undertail coverts, which should have been present on Virginia's Warbler.
- Connecticut Warbler** *Oporornis agilis*
678-82-01 Bend, Deschutes Co., 1 male in alternate plumage on 20 May 1982. Record had been accepted, but was rejected on reconsideration for unconvincing details.
- 678-97-02 Kelly Butte Park, Multnomah Co., 1 bird on 5 May 1997. Not accepted as description was unconvincing and did not rule out other warbler species.
- 678-99-03 HDQ. Malheur NWR, Harney Co., 1 male on 16 May 1999. Not accepted as description did not describe characteristic habits and plumage details, and did not rule out similar warbler species.
- 678-15-04 Lincoln City, Lincoln Co., 18 September 2015. Ambiguous description; behavior not noted; does not rule out other species; need more documentation for a first state record.

Mourning Warbler *Geothlypis philadelphia*

- 679-02-06 Fields, Harney Co., 1 bird on 28 May 2002. Details not totally convincing of this very difficult to identify species. The possibility of Common Yellowthroat was not ruled out.
- 679-03-07 P Ranch, Harney Co., 1 adult male on 18 May 2003. Not accepted as bird seen too briefly to obtain sufficient details for this very difficult to identify species.
- 679-16-09 Skinner's Butte, Lane Co., 1 bird on 29 April 2016. Insufficient description lacked key details and did not rule out other similar species.

Hooded Warbler *Setophaga citrina*

- 684-82-04 Wickiup Campground, Grant Co., 1 on 23 July 1982.
- 684-82-05 Winchuck Campground, Curry Co., 1 on 14 August 1982.

Cape May Warbler *Setophaga tigrina*

- 650-67-03 Malheur NWR, Harney Co., 1 on 9 June 1967. In *Auk* 90: 682. This previously deferred record was not accepted because a description of the bird was not included in the publication and could not be obtained.

Cerulean Warbler *Setophaga cerulea*

- 658-12-01 Eugene, Lane Co., 1 alternate-plumaged male on 28 April 2012. Although details strongly suggest Cerulean Warbler not all field marks were covered. As a first state record the details in the report are not convincing enough to be accepted.

Northern Parula *Setophaga americana*

- 648-79-02 Smith Rocks SP, Deschutes Co., a male on 25 July 1979.
- 648-83-05 Independence, Polk Co., a pair on 25 April 1983.
- 648-93-23 Florence, Lane Co., 1 female on 21 August 1993. The observation of this bird was brief and the chance of misidentification great. The description of the bird was incomplete and did not fully eliminate other species of warbler.

Magnolia Warbler *Setophaga magnolia*

- 657-79-01 Salem, Marion Co., 1 on 6 May 1979. This record had been accepted but was withdrawn by the observer.
- 657-04-29 North Spit Coos Bay, Coos Co., 1 bird on 28 September 2004. This sighting was very brief and the bird was only partially seen. The description did not rule out Townsend's or hybrid warbler.

Bay-breasted Warbler *Setophaga castanea*

- 660-96-09 Fields, Harney Co., 1 in fall plumage on 15 September 1996. Not accepted as details too brief to eliminate similarly-plumaged fall warblers.

Blackburnian Warbler *Setophaga fusca*

- 662-82-01 Humbug Mt., Curry Co., an immature on 2 September 1982.
- 662-03-07 Nehalem, Tillamook Co., 24 September 2003. Incomplete and rather poorly written details did not entirely rule out other warbler species.
- 662-17-17 Tualatin River, West Linn, Clackamas Co., 17 May 2017. Insufficient documentation; does not rule out other warbler species.

Chestnut-sided Warbler *Setophaga pensylvanica*

- 659-00-35 Cape Blanco, Curry Co., 1 bird on 26 June 2000. Not accepted as bird seen too briefly to obtain sufficient details. Very poor photo not clear enough for verification.

Blackpoll Warbler *Setophaga striata*

- 661-75-03 Malheur NWR, Harney Co., 1 on 12 May 1975.
- 661-77-05 Walton Lake, Crook Co., 1 on 27 July 1977.
- 661-83-08 Coos Bay, Coos Co., 1 male in alternate plumage on 4 and 5 September 1983.
- 661-93-30 Astoria, Clatsop Co., 2 birds on 9 October 1993. Not accepted as did not eliminate similar species in this hard-to-identify group.
- 661-01-36 Brookings, Curry Co., 1 fall bird on 9 October 2001. Not accepted as details did not completely rule out similar warbler species.

Black-throated Blue Warbler *Setophaga caerulea*. **Removed from the Review List May 10, 1994**

- 654-86-09 Malheur NWR, Harney Co., 1 female on 22 May 1986. Not accepted because a complete description of the bird was not obtained during the limited time of the observation. Records of this species, especially females, are improbable this early in the year.

Pine Warbler *Setophaga pinus*

- 671-82-01 Fields, Harney Co., 1 on 24 September 1982.
- 671-85-03 Yaquina Bay, Lincoln Co., 1 immature female on 27 October 1985. Record not accepted as observer did not describe the specific field marks that identify this obscurely marked plumage. The observer also failed to note how the other very similarly plumaged warbler species were eliminated.
- [671-05-04](#) Cape Meares Village, Tillamook Co., 1 bird on 23 October 2005. Details and photo did not show the distinctive characteristics of this difficult-to-identify species.

Black-throated Green Warbler *Setophaga virens*

- 667-75-01 Indian Ford Campground, Deschutes Co., 1 on 12 May 1975.

- 667-85-04 Cape Blanco, Curry Co., 1 immature female on 17 August 1985.
- 667-07-14 Finley NWR, Benton Co., 1 bird on 25 April 2007. The bird was identified as a *Dendroica* warbler, which may have possibly been singing a Black-throated Green Warbler song. The observer did not see or describe the underparts of the bird that would have eliminated a Townsend's X Hermit Warbler.
- [667-11-15](#) Fields, Harney Co, 1 female on 4 June 2011. Not accepted as photos show a probable hybrid Townsend's Warbler.

Canada Warbler *Cardellina canadensis*

- 686-04-06 Prineville, Crook Co., 1 bird on 3 September 2004. Description incomplete and did not rule out other warbler species.

Painted Redstart *Myioborus pictus*

- 688-77-01 Gateway, Jefferson Co., 1 on 6 June 1977.
- 688-90-02 Tumalo, Deschutes Co., 1 bird on 2 August 1990. Details insufficient.

Eastern Towhee *Pipilo erythrophthalmus*

- [587-05-02](#) Portland, Multnomah Co., 1 bird on 6 April 2005. Not accepted as despite lack of back spotting, the description and photos did not completely eliminate Spotted Towhee.
- 587-08-04 Portland, Multnomah Co., 1 bird on 10 September 2008. The description was very brief and incomplete. The bird apparently showed only one white spot on the back "at the bottom of the wing" indicating a possible Eastern Towhee. The Committee felt this description did not rule out Spotted Towhee.

Canyon Towhee *Melospiza fusca*

- 588-17-01 Malheur National Forest, Grant Co., 1 bird on 6 June 2017. Description brief and lacking in sufficient details for an out-of-range potential first state record.

Clay-colored Sparrow *Spizella pallida* **Removed from the Review List April 20, 1996**

- 561-84-14 Fields, Harney Co., 1 immature on 23 September 1984.
- 561-87-20 Harbor, Curry Co., 1 on 25 October 1987. Not accepted because the description did not eliminate Chipping Sparrow.
- 561-91-27 Bandon, Coos Co., 1 on December 22, 1991. Not accepted because the description did not eliminate Chipping Sparrow.

Field Sparrow *Spizella pusilla*

- 563-83-01 Malheur NWR, Harney Co., 1 on 2 October 1983.

Lark Bunting *Calamospiza melanocorys*

- 605-85-07 Near Lostine, Wallowa Co., 1 in flight on 4 July 1985.

Baird's Sparrow *Ammodramus bairdii*

- 545-75-01 Falcon Cove Beach, Clatsop Co., 1 on September 25, 1975.
- 545-80-02 Sauvie Island, Multnomah Co., 1 on 11 November 1980.
- 545-83-03 Nehalem sewage ponds, Tillamook Co., 1 immature on 23 September 1983.
- Nelson's Sparrow** *Ammodramus nelsoni*
549-84-01 Tillamook Bay, Tillamook Co., 1 immature on 26 September 1984.
- "Red" Fox Sparrow**
585-94-01 Sutherlin, Douglas Co., 1 bird on 22 November 1994. Not accepted as brief description did not rule out other Fox Sparrow subspecies.
- 585-07-07 Bayocean Peninsula, Tillamook Co., 1 bird on 15 December 2007. Description did not entirely rule out *altivagans* or one of the slate-colored group of Fox Sparrows.
- Swamp Sparrow** *Melospiza georgiana* **Removed from the Review List April 6, 1985**
584-81-04 Enterprise, Wallowa Co., 1 immature on 6 March 1981.
- 584-84-13 Finley NWR, Benton Co., 1 adult in basic plumage on 20 January 1984.
- 584-85-15 Sauvie Island, Multnomah Co., 1 on 9 and 26 February 1985. Record not considered because of removal of species from the Review List.
- Summer Tanager** *Piranga rubra*
610-04-15 Fields, Harney Co., 1 bird on 9 September 2004. The bird was briefly seen in flight at a distance. The identification was made primarily on the color of the underparts. There was little or no description of the rest of the bird.
- Scarlet Tanager** *Piranga olivacea*
608-76-04 Lake-of-the-Woods, Klamath Co., 1 or 2 males in 1976
- 608-16-07 Indian Creek north of Andrews, Harney Co., 31 May 2016. Photos not detailed enough for solid identification.
- Northern Cardinal** *Cardinalis cardinalis*
593-86-01 Talent, Jackson Co., 1 male on 6 April 1985. Origin questionable.
- 593-87-02 Baker, Baker Co., a pair on 31 March 1987. Not accepted because of questionable origin.
- 593-83-03 Cave Junction, Josephine Co., 1 adult male during spring 1983.
- Blue Grosbeak** *Passerina caerulea*
597-03-05 Colony Creek, Harney Co., 1 female on 25 May 2003. Not accepted as key field points were missed, including lack of wingbars.

Indigo Bunting *Passerina cyanea*

- 598-97-22 East of Milton-Freewater, Umatilla Co., 1 subadult male on 4 July 1997. Not accepted as details did not rule out hybrid Indigo X Lazuli Bunting.
- 598-01-25 Cape Blanco, Curry Co., 1 subadult on 28 April 2001. Not accepted as details were brief and did not rule out similar species.

Painted Bunting *Passerina ciris*

- 601-77-01 Malheur NWR, Harney Co., 1 on 11 June 1977.

Dickcissel *Spiza americana*

- 604-96-10 HDQ. Malheur NWR, Harney Co., 1 bird 9-10 June 1996. One report did not describe the bird at all, and the second did not adequately describe it.

Rusty Blackbird *Euphagus carolinus* **Removed from the Review List May 2, 2014**

- 509-79-02 Malheur NWR, Harney Co., 1 male in fall plumage on 15 September 1979. Not accepted as description does not rule out similar species.
- 509-81-04 Nehalem sewage ponds, Tillamook Co., 1 in fall plumage on 10 October 1981.
- 509-88-08 Sauvie Island, Multnomah Co., 1 adult on 7 January 1988. Not accepted because the description did not eliminate Brewer's Blackbird.
- 509-88-09 Commonwealth Lake, Washington Co., 1 adult female on 13 March 1988. Not accepted because the description did not eliminate Brewer's Blackbird.
- 509-89-10 Bandon, Curry Co., 1 female in basic plumage on 17 September 1989. Not accepted because description did not rule out female Red-winged Blackbird.
- 509-05-20 Enterprise, Wallowa Co., 1 bird on 15 January 2005. Description brief and did not eliminate similar species.
- 509-07-21 Stanfield, Umatilla Co., 1 bird on 10 November 2007. Description brief and did not eliminate similar species.

Common Grackle *Quiscalus quiscula*

- 511-81-02 Hart Mt., Lake Co., 1 on 9 May 1981.
- 511-88-05 Ontario, Malheur Co., 2-3 birds on 4 May 1988. Not accepted because description did not rule out similar species.
- 511-91-07 Frenchglen, Harney Co., 1 bird on 24 May 1991. Not accepted as photo did not eliminate Brewer's Blackbird. Not accepted on reconsideration as details and photograph were inconclusive.
- 511-93-10 Roseburg, Douglas Co., 1 bird on 22 May 1993. Not accepted, as details did not rule out other grackles.

511-99-25 Silver Lake, Lake Co., 1 male on 27 August 1999. Not accepted, as this brief report did not completely rule out other Icterid species.

511-00-28 New River, Coos Co., 1 bird on 2 June 2000. Very brief look at flyby bird. Description did not rule similarly plumaged birds.

Great-tailed Grackle *Quiscalus mexicanus* **Removed from the Review List April 7, 2007**

512-97-13 Fields, Harney co., 1 bird on 23 May 1997. Not accepted as brief description did not rule out Common Grackle or other blackbird species.

Orchard Oriole *Icerus spurius*

506-87-02 South Beach, Lincoln Co., 1 on 11 November 1987. The description of this female did not eliminate the similar Hooded Oriole.

506-92-06 Toledo, Lincoln Co., 1 adult male on 22 July 1992. Not accepted as description did not describe a male Orchard Oriole.

506-01-09 Newport, Lincoln Co., 1 bird on 14 October 2001. Descriptions very brief and did not give adequate describe distinctive characteristics of the species or rule out other similar species.

Hooded Oriole *Icterus cucullatus*

505-63-05 Ashland, Jackson Co., 2 males and a female or immature on 15 May 1963. In: *Murrelet* 47: 76, 1966.

505-64-06 Ruch, Jackson Co., a male and a female on 1 October 1964. In: *Murrelet* 47: 76, 1966.

505-95-16 Page Springs CG, Harney Co., 1 first spring male on 21 May 1995. Not accepted as description, although lengthy and thorough, did not rule out first-spring male Bullock's or other oriole species.

Baltimore Oriole *Icterus galbula*

[507-10-14](#)

Hines, Harney Co., 1 male on 22-24 May 2010. Photos indicate the bird was a hybrid Baltimore X Bullock's Oriole.

Scott's Oriole *Icterus parisorum*

504-81-01 Bend, Deschutes Co., 1 adult and 4 immatures or females on 12 September 1981.

Lawrence's Goldfinch *Carduelis lawrencei*

531-62-01 Talent, Jackson Co., 1 in fall of 1962 (photo).

531-01-05 Dallas, Polk Co., 3-6 birds on 14 April 2001. Report from memory submitted seven years after the fact. Identification made from field guides.

531-08-09 Oregon City, Clackamas Co., 1 bird on 15 May 2008. Description did not entirely rule out other goldfinch species.

531-13-14 Kirtland Road Sewage Ponds, Jackson Co., one bird on 17 May 2013. While possibly correct the details were very brief and incomplete.

Eurasian Tree Sparrow *Passer montanus*

688.3-89-01 North Bend, Coos, Co., 1 adult bird from 17 July to 10 September 1989. Record not accepted because the origin is considered questionable.

688.3-89-02 Astoria, Clatsop Co., 1 adult bird on 2 December 1989. Record not accepted because the origin is considered questionable.

MISCELLANEOUS SPECIES

Several species appear on the official checklist of Oregon birds, and the OBRC lists them on the Review List, but the OBRC has not reviewed these reports:

California Condor *Gymnogyps californianus*.

Gabrielson and Jewett (1940, *Birds of Oregon*, Oregon State College, Corvallis, pages 180-181) report that California Condors were first recorded in Oregon by Lewis and Clark, but that there were no reliable accounts after 1904.

Sharp-tailed Grouse *Tympanuchus phasianellus*.

Once widespread in eastern Oregon, Sharp-tailed Grouse has not been reliably reported since 1969.

Gabrielson and Jewett (above, page 217), foretold its extirpation: “. . . continual persecution and shooting, combined with human encroachment on its alternate grounds, have so reduced it in numbers that its future as an Oregon bird is precarious.”
